

This is a place where you can sell yourselves and your clubs, Include information on the history of your club, what projects you do in your local communities and what causes you support.

Brag a little... this is a prime example to get people interested while they see you are doing something motivational, upbeat and fun, while supporting a great cause.

Invite everyone out to the after scavenger event of your choice, to join you to celebrate the event, be present for the awards presentations and tally results of the day.

Take this perfect opportunity to grow and share in Kin and ensure the health of your clubs for years to come by getting new members out.
